

ES-Alert

PUBLIC ALERT SYSTEM

ALERT DRILL

Next Thursday, **24 October**, between 10:00 and 12:00 hours, the Government of the Canary Islands will **launch a drill in Tenerife to warn the entire population**, both residents and tourists, by means of an alert via mobile devices operating with 4G and 5G.

This is the **ES-Alert** system, which is being implemented throughout Spain and has already been tested on other islands of the archipelago.
