Hotelería de Mallorca

**Limits on
temperatures at
hotel
establishments**

NEW STATE REGULATION

Fehm.

Federación Empresarial
Hotelería de Mallorca

The temperature at this establishment is governed by Spanish Royal Decree-Law 14/2022, of 1 August, on extraordinary energy efficiency measures (OSG N° 184 of 2-08-2022), in order to meet the energy saving targets set by the Government of Spain. Certain exceptions apply, such as inside the guest rooms.

Spaces should be heated to no more than 19°C

Relative humidity should be between 30%-70%

Spaces should be cooled to no less than 27°C

Validity

From: 10-08-2022

To: 01-11-2023

**Failure to comply with these obligations will result in a penalty*

EXCEPTIONS IN THE WORKPLACE

Whenever there are reasonable grounds to relax these criteria, the external, joint or internal prevention services, or similar service, will determine the appropriate temperature for each position, activity and task that guarantees the health and safety of workers within the thresholds provided for in Article 7 and Annex III of Spanish Royal Decree 486/1997, of 14 April, establishing the minimum health and safety provisions governing places of work.
